

SWOLL-UP.COM™ BODYBUILDING

HIGH IMPACT **SWOLL-O2** NITRIC OXIDE FORMULA

90 TAB / \$23.95

SWOLL-O2 is not just your standard NO2 supplement. Yes, you'll get the same great pump, increased blood flow, more strength, and faster recovery, but now you'll get enhanced recovery of muscle tissue due to the added Glutamine-AKG (GKG).
 What is Nitric Oxide (NO2)? Nitric Oxide is a free form gas that is produced in the body and used to communicate with other cells. Recently, Nitric Oxide containing products have been used by those in the medical profession because of their ability to control the circulation of the blood, regulate activities of the brain, lungs, liver, kidneys, stomach and other organs. NO2 is also popular with athletes looking add muscle to their physique. The fact that Nitric Oxide expands blood vessels and increases blood flow makes it exciting to bodybuilders because improved blood flow will deliver more nutrients and oxygen to muscles.
 Why is SWOLL-O2 unlike any other NO2 supplement on the market? SWOLL-O2 contains Glutamine-AKG (GKG) which makes you appear, feel, and become more ripped and muscular. GKG is the most plentiful free forming amino acid in muscle tissue! GKG is a dietary supplement that has been designed specifically for athletes who train with weights. It has been known to help muscle cells keep maximum volume by preserving their most abundant amino acids: glutamine and taurine. Many clinical studies have verified the importance of these amino acids and their role in muscle growth and protein synthesis.
 SWOLL-O2 is the most superior pre-workout initiator in existence! Take your workout and muscle pumps to another level. Our 90 Tab Bottle provides over a 1 month supply. GET SWOLL!*

Supplement Facts	
Serving Size 3 Tablets	
Amount Per Serving	
A-AKG (arginine alpha-ketoglutarate)	2985 mg *

ANABOLIC **WARPED** EXTREME

30 CAP / \$23.95

WARPED is our newest, mind-blowing, extreme testosterone boosting compound which is packed with potent anabolic precursors to heighten your training intensity, recovery, and growth. WARPED is the only product on the market that contains all the ingredients described below, and it will undeniably take your workouts to the next level!
 DHEA is an EXTREME supplement which has been shown to have amazing effects including helping with weight loss, fat burning and muscle building. DHEA can help maintain proper levels of testosterone in the body and can aid a person in their overall well being. DHEA levels do decrease with age, so people above middle age can have even more explosive results!
 HMB is used by many athletes across the world. It plays a role in the production of muscle tissue and has the ability to enhance burning fat and building muscle in response to exercise. A study conducted showed that those who supplemented with HMB experienced enhanced strength, greater endurance, and increased fat loss. How does HMB work? It appears to boost the rate of protein being used to increase muscle growth, while decreasing the tear down of muscle that occurs with intense training.
 Methoxyisoflavone is another potent compound shown to increase protein synthesis and improve overall recovery from exercise. Tongkat Ali has been shown to support male hormonal balance (including testosterone availability) and research has revealed that Tongkat contains several plant chemicals that support healthy testosterone levels.
 Vitamin B6 is a vitamin that helps the body turn protein, fat, and carbohydrates into energy. It also plays a key role in maintaining healthy immune and nervous systems, helps fight heart disease, regulates hormone production, and works to keep red blood cells from forming potentially dangerous blood clots.
 Take WARPED with a hard core diet and training routine to help manipulate your hormonal profile, and turn your body into an anabolic machine. DON'T BE AFRAID TO BE ANABOLIC!*

Supplement Facts	
Serving Size 1 Capsule	
Amount Per Serving	%Daily Value
Vitamin B6 (pyridoxine hcl)	25 mg 125%
Zinc (zinc methionine)	4.5 mg 30%
Magnesium (magnesium aspartate)	6.5 mg 2%
Tribulus (45% extract)	200 mg *
DHEA	100 mg *
Deer Antler (powder)	100 mg *
Tongkat Ali Root (powder)	100 mg *

PEAK PERFORMANCE **TRIBAL** TRIBULUS TERRESTRIS

90 TAB / \$23.95

TRIBAL is now the most primitive tribulus terrestris extract on the market, helping you to increase testosterone and LH levels (Lutenizing Hormone) naturally and enhance your libido and sexual performance!
 Testosterone is thought by many to be an important muscle-building hormone, and virtually all males, especially bodybuilders and strength addicts, are looking to amplify it. All types of athletes have used Tribulus Terrestris supplements to boost energy levels, promote healthy hormone function, enhance muscle tone and support athletic training for years.
 TRIBAL effectively maxes your natural Testosterone levels and can help you take advantage of new levels of explosive, muscle building benefits. Additionally, clinical research suggests that Tribulus Terrestris may also support healthy blood pressure and healthy cholesterol profiles already in normal range.
 With a staggering 1000mg of Tribulus per tablet, TRIBAL packs a powerful pro-testosterone punch. BE PRIMITIVE!*

EXTREME **ACID** FAT MELTING CATALYST

90 GEL CAP / \$23.95

ACID is a Conjugated Linoleic Acid (CLA) complex derived from naturally occurring free fatty acid found mainly in meat and dairy products (examples include milk, cheese, beef, or lamb). Our ACID product has an optimized delivery system utilizing a softgel capsule. CLA is believed to aid in building muscle, reducing body fat, and generally improving health! Not only has CLA been shown to increase muscle mass while reducing body fat, studies have also shown it possesses anti-catabolic, antioxidant, and immune enhancement benefits. We like to think of ACID as an enabler to food efficiency (muscle growth rate increase while decreasing body fat). Said another way, change your body composition by melting away fat in order to reveal the muscle underneath!*

AMINO BLAST allows you to amplify your muscle gains by packing all the amino supplementation you need into 60 tabs! Amino acids are the building blocks of protein, and they come from protein rich sources (meat, fish, dairy products, etc.). After protein is consumed, it is broken down into amino acids. Then, individual amino acids are used to create necessary body proteins and enzymes. Amino acids are not only responsible for the manufacturing of all the body's enzymes (including digestive enzymes), but they also can play a key role in regulating moods, awareness, aggression, and sleep. Many scientists, experts, and medical professionals agree that getting enough amino acids in one's diet is an important factor in maintaining good nutrition! How can athletes benefit from amino acids? Bodybuilders can have huge gains from supplementing amino acids because they aid in repair, growth, and development of muscle tissue. Immediately after exercise, when the muscle is most accessible to nutrients and the blood flow to the muscles is still elevated a short period of time exists to support muscular growth and recovery. Unfortunately, a high protein meal will not put significant levels of amino acids into your blood stream until a couple of hours after you eat it. So...the most reliable way to deliver specific amino acids is to administer them through free form amino acids. The benefit of free form amino acids is mainly that they do not require digestion. They are free of chemical bonds to other molecules, so they move quickly through the stomach and into the small intestine. This is where they are rapidly absorbed into the bloodstream; the entire process usually happens within fifteen minutes! This quick absorption helps prevent muscle catabolism. AMINO BLAST can help transform your body. GET BLASTED!*

SWOLL-UP.COM AND LOGOS ARE TRADEMARKS SWOLL-UP.COM 2001		

STACKED is engineered to stimulate those factors essential for maximum hormone production, and it allows you to legally increase your HGH production versus taking illegal prescription Human Growth Hormones (HGH). Human Growth Hormone (HGH) is the master hormone, because it is released by the master gland--the anterior pituitary gland. HGH seems to play an important role in human development. Early in one's life, HGH levels determine a person's height and bone size, and later, HGH continues to control the body's metabolism. Using STACKED, you can fight the effects that diet, exercise, sleep, and age can do to natural levels of HGH. HGH is said to have benefits such as body fat reduction, improvement to libido, and enhancement to the body's immune system, so supporting your body's natural HGH can have mind-blowing results without the unwanted side effects. IGNITE THE PITUITARY GLAND!*
